## Education

### JSS SCIENCE AND TECHNOLOGY UNIVERSITY

B.E - Computer Science and Engineering

May 2025

CGPA - 9.03

### Saraswati Vidya Mandir

XII (CBSE)

May 2020

Cum. per - 92.4%

## Skills

**Languages:** java, C,python, JavaScript, SQL

**Frameworks/Library:** Bootstrap, Handlebars, ReactJS, Express, NodeJS

**Technologies:** HTML5, CSS3, NoSQL, MERN

**Tools:** Windows, Git, GitHub

**Soft Skills / Hobbies:** Chess, Travelling

## Coursework

Data Structure and Algorithms (DSA)

Oops Concepts

Database Management System (DBMS)

Operating Systems

Computer Networks

## Projects

### SMS Spam Classifier

- Utilized NLP techniques to build a robust SMS spam classifier, aiding in effective filtering of unwanted messages and enhancing user communication experience. **Tech Stack:** Python, Natural Language Processing (NLP)
- Implemented machine learning algorithms to accurately classify SMS messages, significantly reducing the inconvenience caused by spam messages for users. **Impact:** Improved user productivity and satisfaction by providing a reliable solution to handle spam messages efficiently.
- Developed a user-friendly interface for easy interaction with the classifier, allowing users to quickly determine the legitimacy of incoming messages.

### SaleSpectrum - Admin Dashboard

**Tech Stack:**React, Redux Toolkit, NodeJS, Express, MongoDB

- Efficient retrieval and sorting, including integration of aggregate functions and pagination for data rendering.
- Rendering of responsive pie charts using Nivo with color-coded breakdown of sales data.
- Comprehensive approach to theming and customization for design consistency.

[Project Link](#)

### Commerce API

- Developed a secure e-commerce API utilizing MongoDB for database storage and Express.js for the backend.
- Implemented robust JWT authentication for enhanced data protection and user authorization.
- API is documented using Docgen.

[Project Link](#)

**Tech Stack:** NodeJS, ExpressJS, MongoDB, JWT, Bcrypt, Docgen

## Position of Responsibilities

- Held the position of Technical Coordinator in Linux Campus Club.
